

Waiting List Dashboard

Key Points Summary

The data reported is from the last census in each month, the last reported census is for 29 June 2026.

Outpatient Waiting Times Key Points

- The outpatient waiting list stood at 3,842 patients, a reduction of 52 patients from May 2026
- The number of patients waiting over 52 weeks reduced by 16 to 454 patients
- Patients waiting over 52 weeks include 447 Ophthalmology, 2 TAVI and 5 other Cardiology

Inpatient Waiting Times Key Points

- The inpatient waiting list stood at 3498 patients, an increase of 191 patients from May 2026
- The number of patients waiting over 52 weeks increased by 40 to 113 patients
- Patients waiting over 52 weeks include 106 Cardiology EP, 1 Cardiology Mitraclip, 3 Orthopaedics and 3 Cardiac Surgery

Scottish Government Reported 52 Week Wait Trajectory

- The Scottish Government reported position may differ from the local reporting due to differences in data extraction timings
- For outpatients a position of 453 long waiters was reported against a trajectory of 444 (9 worse than plan)
- For inpatients a position of 113 long waiters was reported against a trajectory of 107 (6 worse than plan)

Waiting List Dashboard: Definitions

Definitions

Percentage of outpatients seen within 12 weeks

The percentage of patients seen at an outpatient appointment within 12 weeks of referral, calculated as a proportion of all outpatient appointments delivered. This includes any waiting time at the referring Board prior to receipt by NHS GJ.

Percentage of inpatients seen within 12 weeks

The percentage of patients admitted within 12 weeks of referral, calculated as a proportion of all admissions from the inpatient waiting list. This includes any waiting time at the referring Board prior to receipt by NHS GJ.

Number of outpatients/inpatients waiting over 12, 26 and 52 weeks

The total number of patients waiting on outpatient and inpatient waiting lists for over 12, 26 and 52 weeks at the last census date of the reporting month. This includes any waiting time at the referring Board prior to receipt by NHS GJ and counts both available and unavailable patients.

Census Dates

For waiting list distributions the monthly position is based on the last weekly census position for that month.

Total Waiting Time

This refers to the patients total wait from the time of original referral minus any periods of known unavailability.

Golden Jubilee Wait

This refers to the patients wait at NHS GJ from the time the referral was received at NHS GJ. The patient may have waited a significant period of time before the referral was transferred to NHS GJ. If the Total Waiting Time is shorter than the Golden Jubilee Wait the Total Waiting Time position will be used, this will account for some instances of unavailability however not all NHS GJ unavailability can be differentiated.

Percentage of Diagnostic Imaging patients waiting under 6 weeks

The total number of patients who have been waiting for a diagnostic imaging procedure for under 6 weeks as a percentage of total patients waiting.

Number of outpatients/inpatients waiting over 12, 26 and 52 weeks

The total number of patients waiting on outpatient and inpatient waiting lists for over 12, 26 and 52 weeks at the last census date of the reporting month.

Census Dates

For waiting list distributions the monthly position is based on the last weekly census position for that month.

Golden Jubilee Wait

This refers to the patients wait at NHS GJ from the time the referral was received at NHS GJ. The patient may have waited a significant period of time before the referral was transferred to NHS GJ. If the Total Waiting Time is shorter than the Golden Jubilee Wait the Total Waiting Time position will be used, this will account for some instances of unavailability however not all NHS GJ unavailability can be differentiated.

SG Reported 52 Week Wait Trajectory

This measure aligns with the NHS GJ reported number of patients waiting over 52 weeks and reflects the planned trajectory for long-waiting patients, as submitted weekly to the Scottish Government.
